Minimum Specifications for Student Devices

ICT Laptop minimum Requirements for IT Certificate 3 course (available to Year 11s by application)

- CPU i7 intel 16GB Ram 500GB to 1TB SSD drive (any brand of your choice)
- MacBook Air with M1 or M2 chip

ICT Laptop minimum requirements for general use

- CPU i5 to i7 intel 8GB Ram 256 to 500GB SSD drive (any brand of your choice). For better performance, choose an i7 CPU
- MacBook Air

We do not recommend Google Chrome Books as they are unable to install additional software.

We do not recommend iPads and Android tablets.

ICT recommendations are based on software and performance requirements. Please contact the ICT Department for more information or clarification.

Students are encouraged to bring their devices fully charged to school each day. If devices require charging at school, students must ensure their device is electrically tested and has a current tag attached before plugging into the limited power points available. This service is offered at the start of each school year and can be organised during the year by speaking with ICT Staff.

Some power banks may be available for USB-C devices but students should not rely on these as a routine measure.

** If bringing a device from previous school, please ensure it is unlocked from that school's system, or that a factory reset has been done before trying to connect to the Australian Science and Mathematics School.
