Governing Council Report

The Australian Science and Mathematics School (ASMS) refuses to be ordinary. That is what makes it a “destination school”.

It is often said that you can recognise an Australian Science and Mathematics School (ASMS) student by the way they think: they are notably curious, analytical, and bold. In 2025, this reputation was further solidified as the school's community continued to flourish, driven by its core values of Community, Agency, and Curiosity.

This year marked the second year of the Evidence of Learning (EOL) model. Students have shown incredible resilience and adaptability in embracing this system, which empowers them to take greater ownership of their educational journey. This successful transition is a testament to the passion and leadership of the school's wonderful staff.

In 2025, the school balanced its commitment to internal excellence with a significant external impact through:

- **Strategic Partnerships:** furthering its collaboration with Flinders University and playing a pivotal role in the establishment of the Tonsley Technical College.
- **Global Leadership:** continuing to lead the International Science Schools Network and hosting a spectacular International Science Fair in September, welcoming bright minds from across the globe to its campus.
- **Statewide Outreach:** sharing STEM innovation and curriculum design expertise with educators throughout South Australia via its Professional Outreach program.

The role of the Governing Council is to help set and monitor the direction of the school. It plays a key role in a number of areas, including strategic direction, policy review and financial oversight. More importantly, it supports the interface between the school, the student carer group and the community.

In 2025, the Council focused on two primary themes: deepening the sense of community amongst school stakeholders; and enhancing communication between the school and the home.

By actively engaging in school events and ensuring that the voices of stakeholders were heard and valued, the Council worked to bridge the gap between classroom and community. The Council comprises a diverse mix of staff, parents, students, industry, and university representatives, which provides remarkable breadth of perspective. This diversity enables creativity and insight that feeds back into school strategy.

The staff of ASMS deserve the highest praise for their unwavering commitment. They consistently go above and beyond, offering their time and expertise well outside traditional hours to support students and families. Likewise, our students continue to inspire us with the passion and agency they demonstrate as they prepare to become the leaders of tomorrow.

The Governing Council is grateful for the support of all stakeholders who make the ASMS a world-class institution. We look forward to building on these successes in 2026.

Attendance Comment

In South Australia, all children and young people must be in school from 6 years to 16 years old. They must attend a government or non-government school full time. From age 16 to 17 however, young people must attend school or an approved learning program (such as an apprenticeship, traineeship, accredited course or university). Schools and parents must encourage and support students to come to school every day. Parents and caregivers must make sure their child is enrolled in a school, and attends school all day and everyday it is open, unless a child is sick or has an approved exemption. Teachers and leaders actively follow up when a student misses school, including recording all absences and non-attendance. All schools in South Australia have local attendance procedures governed under the Education and Children's Services Regulations 2020.
