## Primary Science Workshops 2024

Term 1, Week 6, 2024 – Friday 8 March & Online Sessions

### Details

**Type of learning:** Workshop

**Audience:** Primary Science Teachers

**Time:** Friday 8 March Term 1 Week 6 2024 & Online sessions

**Location:** Australian Science and Mathematics School, Kurna Country, Flinders University

Science, and thinking scientifically, is important for developing curiosity, critical thinking, questioning claims and drawing sensible conclusions. In a world of fake news, mis-reported statistics, pandemics and global environmental issues, being able to think like a scientist is key. If you're a primary science teacher, come explore how to support scientific thinking with your students.

Half day workshop options can be run at your site by negotiation e.g. on a student free day.

### Join our Teams Community

You can also be added to our Teams community for Primary Science Teachers for online catchups each term to share resources and ideas. Email [pl@asms.sa.edu.au](mailto:pl@asms.sa.edu.au) to be added to our Teams community.
