STUDENT USE OF A MOTOR VEHICLE

Dear Parent/Caregiver,

Students are permitted to drive motor vehicles to school. To help ensure their safety we ask you to discuss the following conditions with them before completing this form.

This completed form must be returned to ASMS administration (upstairs) before students commence driving to school and parking on Flinders University Campus. Information on parking options at Flinders University is available from ASMS administration.

The ASMS assumes no responsibility for the motor vehicle whilst parked on the University Campus.

Students must not use motor vehicles during school hours.

Fellow students are not to travel in a motor vehicle as a passenger unless signed parental permission is provided by both families.

It is expected that:

Students use the vehicle to travel directly to and from school; side trips during these drives are discouraged.

It is a requirement that:

Once the car is parked, students do not use their cars during the day for non-education related trips and only use the car for approved education-related trips or to leave the campus.

Students can sign in and out only once for any given day unless there are educational requirements that require them to travel to other parts of the campus.

Fellow students are not to travel in a motor vehicle as a passenger unless parental permission is given by both families. In the event that the driver lives independently, the permission of the passengers' parents is required only.

A breach of these rules may result in the driver being suspended from school.

Please discuss the following issues related to driver safety:

- Obey the speed limit
- Keep your mobile phone off
- Minimize distractions to reduce the risk of losing control of your car.
- Limit the number of passengers

Kylie Eggers
Principal
